

March 2, 2009

Requirements for a Fuel Tank Installation per TSSA – Technical Standards and Safety Act 2000, S.O. 2000, c.16, and the Liquids Fuels Handling Code 2007 made under O.Reg. 217/01, as amended.

1. Please provide 2 copies of site drawings showing the tank installation, sealed, signed and dated by a Professional Engineer as required by the Ontario Building Code.
2. Please provide an original letter, professionally sealed, signed and dated, confirming that the entire installation is designed in accordance with the Liquid Fuels Handling Code and will be approved and inspected by the Technical Standards and Safety Authority.
3. Please provide a letter of certification from TSSA confirming that an application for a Licence to Operate has been submitted, the plans have been reviewed for this project and that inspection will be carried out as per the Liquid Fuels Handling Code.
4. Fire department review is required for this permit. Fire Plan Examination phone is (905) 832-8510 extension 8203.
